Munaga Sai Krishna

LinkedIn: https://www.linkedin.com/in/saikrishna10 Email: mmunagasaikrishna@gmail.com
GitHub: https://github.com/saikrishnamunaga Mobile: +91-8688962952

Skills

- **Languages:** Python, SQL, JavaScript, C, C++, Java
- **Libraries & Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Databases:** MySQL, Relational Databases
- **Tools/Platforms:** Git, GitHub, Jupyter Notebook, Anaconda, Excel (Advanced)
- **Frameworks & Web:** HTML5, CSS3, Streamlit, Responsive Web Design, Django
- **Core Concepts:** Data Cleaning and Preprocessing, EDA, Feature Engineering, Data Visualization
- **Soft Skills:** Collaboration, Adaptability, Time Management, Communication, Problem Solving

Projects

Learning Management System (LMS) | GitHub Feb'26

- Built a full-stack Learning Management System (LMS) using Django and Django REST Framework to manage courses, users, and assignments.
- Established secure JWT-based authentication with role-based access control (Admin, Instructor, Student).
- Engineered RESTful APIs for course creation, enrollment processing, lesson delivery, and assignment submissions.
- **Tech Stack:** Python, Django, Django REST Framework, JWT Authentication, SQLite, HTML, CSS, Git, GitHub

Chatbot Using LLM Models | GitHub Jul'25

- Architected a scalable AI-powered chatbot leveraging Large Language Models (LLMs) to handle real-time user interactions.
- Reduced response latency by 40% through advanced prompt engineering and optimized REST API workflows.
- Applied NLP preprocessing techniques including tokenization and intent classification, improving response relevance and increasing model accuracy by 15%.
- Integrated external LLM APIs (Gemini API) to generate intelligent, context-aware conversational responses.
- **Tech Stack:** Python, LLM, Gemini API, REST APIs, NLP, dotenv, Git, GitHub

Fitness Web Application | GitHub Jan'24

- Developed a responsive fitness web application enabling workout planning, exercise tracking, and nutrition monitoring.
- Implemented key features including user authentication, workout search and filtering, and dynamic UI components using HTML, CSS, JavaScript, and React.js.
- Improved overall UI/UX performance across mobile and desktop platforms for smoother navigation and better user experience.
- **Tech Stack:** HTML, CSS, JavaScript, React.js

Training

AI & ML for Real-world Problem Solving | Certificate Jun'25 – Jul'25

- Successfully completed a hands-on training program in Artificial Intelligence and Machine Learning.
- Gained practical experience in solving real-world problems using supervised and unsupervised learning.
- Worked with machine learning algorithms including Linear Regression, Logistic Regression, Decision Trees, and K-Means Clustering.
- Awarded a Certificate of Merit (Grade A) for strong analytical accuracy, technical proficiency, and high-quality project execution.
- **Tech Stack:** Python, NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook

Certificates

- Cloud Computing Certification – NPTEL **Certificate** Oct'25
- Build Generative AI Apps & Solutions (No-Code Tools) – Infosys Springboard ***Certificate*** Aug'25
- Python Django For Beginners **Certificate** Feb'24
- Responsive Web Design Certification – FreeCodeCamp ***Certificate*** Oct'23

Achievements

- **Top 10 Placement** Jan'24
  Ranked Top 10 out of 50+ teams for delivering an innovative web-based solution under tight deadlines in a competitive college hackathon

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering **CGPA: 6.25** Aug'23-Present
- **Sai Gowthami Junior College** Telangana
  Intermediate **Percentage: 64%** Jul'21 – Mar'23
- **PGF High School** Telangana
  SSC Board **Percentage: 97%** Jun'20- Mar'21
